

# ProTech Sécurité

Press release

Monaco, 10th of April 2019

**ProTech Securit is participating at the 1st edition of Platinum Security Exhibition, an international private security exhibition - from 10th to 12th April 2019 - in the Principality of Monaco.**

ProTech-Securit is specialized in high-certified bullet-proof protection (single or double-leaf doors and windows, access SAS, panic-room, glass walls, watchtowers, guardhouses, etc.). We work mainly with the army, embassies, prisons and the protection of sensitive sites, such as the installation of bullet-proof walls and gates around the Eiffel Tower or the securing of VIP / presidential areas in a football stadium.

Our products are used in infrastructures in several countries such as Switzerland, Belgium, Mauritania, Morocco, Cameroon, Haiti, Guyana, Luxembourg and the Principality of Monaco.

Everything we design and manufacture is certified according to the strictest European Standard, namely EN 1522 - EN 1523, from FB3/BR3 NS to FB7/BR7 NS (maximum certification against war weapons). To answer our customers' expectations, some of our products are also bullet-proof and fire-proof.

**ProTech Securit**

You are in safe hands
